AMBITION

My ambition is to grow into a professional game developer, specializing in gameplay, engine, and systems programming. I want to deepen my knowledge in designing tools, frameworks, and mechanics that power games, with the long-term goal of contributing to large-scale projects in the industry.

EDUCATION

Software Developer N4 - Scalda

2022 - Now(Ongoing)

**Creative media & Game
Technologies - Breda University
of Applied Sciences**

2026 - 2030

ABOUT ME

18-year-old software development student at Scalda Netherlands with Ghanaian-Dutch heritage. Interested in gameplay, engine, and systems programming, with a strong ambition to grow into professional game development.

HOBBY'S

Outside of development, I enjoy exploring anime, gaming, 3D art and going to the gym, as well as experimenting with new technologies and personal coding projects. I'm also passionate about continuous learning and improving my skills both in and outside of game development.
